

protect yourself and your loved ones from infections & allergies

Do you know...

that air pollution causes a larger number of deaths worldwide than AIDS, diabetes and traffic accidents together?

ReSpimask[®]

NANO FIBER

- Facemasks with RESPILON[®] nanofiber membrane stop dangerous viruses, bacteria, mold, smog, pollen and dust particles
- ReSpimask[®] provides reliable protection from air pollution, allergens and infections such as influenza and its variants
- The protective properties of the mask are further enhanced by its unique shape and adhesive strip for a tight fit
- ReSpimask[®] is comfortable, easy to use and comes in various sizes
- It is an ideal protection against smog, various infections or epidemics
